# KPipes

## Electronic Practice Chanter for Great Highland Bagpipe

**KPipes** is the perfect instrument for learning the Bagpipe, training and progressing.

**KPipes** is quiet, may be used with earphones or headphones and do not cause any trouble to the family or to the neighborhood.

**KPipes** dimensions are the same as a genuine bagpipe chanter, with the same fingertips and a similar tactile feeling.

**KPipes** delivers either a traditional practice chanter sound or a bagpipe sound.

### Main features :

- Leading edge electronics technology
- Same dimensions as the bagpipe chanter
- Basic mode for beginners or advanced mode for advanced pipers
- Fingers detection by highly responsive capacitive sensors.
- Reliable performance even with dry or wet fingers
- Standard fingertips
- Adjustable pitch
- Adjustable global sound and drones sound levels
- Upgradable firmware, free !
- Stereo output (jack 3.5mm) for driving earphones, headphones, amplified speakers, amplifiers, recorders, etc ...
- Stereo input (jack 3.5mm) for mixing an external sound (CD or MP3 reader, metronome...)
- Power supply by a single AA battery
- Optional extensions for MIDI interface or active mounting on the bagpipe
